

# New from Almi:

## The AL 15 \*14Kg\* Portable Blockcutter

The latest development in paving, is the new blockcutter

**AL 15 \*14Kg\*** from Almi.

Employees that need to carry heavy loads every single day have a larger chance in getting serious back problems than employees that don't. Health and safety are becoming important issues. For these reasons Almi has come to the development of a blockcutter with a weight of only 14 Kg.

By using a new patented system Almi is able to achieve an enormous weight reduction which results in the following advantages:

- Cuts light by using a new patented system.
- Easy height adjustment.
- Easy to move **(portable)**.
- Easy to transport.
- Compact.
- Low weight.

**!! Try and Experience !!**

### Technical data ALMI AL 15
